Breaking News: The Economic Stimulus Act of 2008

Congress recently doubled the tax benefits under Section 179 that allows a corporation to fully expense **capital lease purchases** in the year their lease starts. Businesses can now 100% write off lease purchases up to \$250,000 in 2008. This includes business telecommunications equipment, cabling, installation and even shipping!

Speaking Of The Government...

- Did you know that municipalities can lease equipment?
- Many choose this option as it allows them to spread out their annual budgeting dollars over multiple purchases.
- Municipal leases qualify for special government subsidized rates.
- Municipal leases have clauses that allow the municipality to "walk away" from the lease if the annual budget dollars are not renewed.

Cross-Selling Your Products

- Leasing easily allows you to bundle the other products you sell into one complete solution for your customer.
- If you also sell security systems, computer hardware/software, or any type of office equipment, it can also be leased to your customer at the same rate!

Customer Care Pledge

PCG pledges to be the **Business Partner you can count on!**
